FOR IMMEDIATE RELEASE

CA-RNHA ENDORSES LARRY ELDER FOR GOVERNOR OF CALIFORNIA

San Jacinto, CA (August 24, 2021)- This past July, the California Republican National Hispanic Assembly (CA-RNHA) announced their support on the recall effort against Governor Gavin Newsom. In the Latino community, over half of its registered voters now support the recall. These past weeks, the question became who would be the individual Californians would rally behind to challenge Governor Gavin Newsom. CA-RNHA believes the only candidate up for the challenge is Larry Elder. CA-RNHA is honored to endorse Mr. Elder for Governor of California.

Anti-recall proponents claim this recall effort is being led by white supremacist, radical Republicans, and anti-vaxers. The reality is much different. This effort was a bipartisan achievement of all Californians with over 2 million signatures demanding for a recall. This recall shows true political diversity as 54% of Californian Latinos support the removal of Governor Newsom, and a native African American from South Central as the front runner for Governor.

Mr. Elder's plans for California will help the Latino community thrive. First through education which will allow parents to have access to school choice so their child can receive a good education. Second, combating crime by funding our police with the necessary resources to keep Latino communities safe. Third, removing the draconian covid 19 policies that led to the shutdown of Latino businesses and end the economic hardship in the community. Finally, allowing Latinos to return to their places of worship.

Governor Gavin Newsom failed the Latino Community, and a change must be made in Sacramento. Join CA-RNHA in getting Larry Elder Elected as our new Governor!

CA-RNHA is a state chapter of the Republican National Hispanic Assembly, an American grassroots political organization founded in 1967 which promotes Latino issues and interest. For more information on or if you wish to support CA-RNHA, call 951-405-3314 or visit:
